D. A. R.'S IN A LIVELY CONTEST

THREE CANDIDATES RUNNING FOR PRESIDENT-GENERAL

And Election Comes This Week—Mrs. Donald McLean an Independent Candidate—Postal Cards Declare That Her Wishes Cry to Heaven for Redress.

A lively contest for the office of President-General of the Daughters of the American Revolution is expected when the congress of the national society opens in Washington this week. Mrs. Charles W. Fairbanks, wife of the Vice-President of the United States, has for the last four years been at the head of the organization, and as she cannot run again her successor will be chosen at the congress.

There are three candidates in the field. Mrs. Charles Warren Lippitt of Providence, R. I., wife of a former Governor of Rhode Island, who has been at the head of the Daughters of the American Revolution and the Society of Colonial Dames in her own State, is the New England candidate for the office, while Mrs. George M. Sternberg of Washington, wife of the former Surgeon-General of the United States Army, is the choice of the Washington wing of the organization. Mrs. Donald McLean of New York, regent of the New York city chapter, is making an independent campaign for the office.

Friends of Mrs. McLean are anxious that she shall win, and postal cards bearing the following have been circulated throughout the country to her friends and opponents alike:

"As you hope for mercy yourself at the Judgment Seat of God, use your influence to help elect Mrs. McLean, president of the D. A. R. Her wrongs cry to Heaven for redress."

As a semi-official endorsement of the candidacy of Mrs. McLean by her own chapter, a circular letter has been sent out to chapters throughout the country. It says in part:

"Her ability is recognized throughout the country, as is proved by the fact that she has travelled nearly 100,000 miles on invitation from patriotic organizations, from high officials of different States and from leading chapters of the D. A. R. to speak for them on national occasions. This society has not been taxed for this service. The time has been freely given and every dollar of the expense has been paid from her own or her husband's income."

Those who are opposed to Mrs. McLean for President-General have said that her interest in the building of Continental Hall, the new headquarters in Washington of the organization, which will cost several hundred thousand dollars, is not so deep-seated as she would like to have many of the Daughters believe. This building will be completed, if the plans are carried out according to programme, during the term of the incoming President-General, and it is intended to make its formal occupancy by the Daughters an event of national importance.

As proof of Mrs. McLean's interest in Continental Hall she is credited with the following statement:

"I have been heartily in favor of the project for the building of Continental Hall from the year the society organized and I am heartily in favor of it now. I have no idea why a rumor to the contrary should be circulated. The record of the Daughters of the American Revolution as printed in the American Monthly Magazine shows my favorable attitude in this matter from the earliest days."

"I have pledged a memorial to my mother, Mrs. John Richey of Maryland, such memorial to take the form of the carved coat of arms of that State to be placed in Continental Hall. I hold myself ready to redeem that pledge at the first moment it becomes possible."

Those who are working in the interests of the other candidates for this office have questioned the real attitude of the New York Chapter and its regent toward Continental Hall. These leaders of the opposition to her, acting on the suggestion of Mrs. McLean that proof of her interest in Continental Hall could be found in the American Monthly Magazine, the official organ of the Daughters of the American Revolution, looked up the files of this publication.

These investigators say that they can't find very much information in the magazine that will uphold Mrs. McLean's statement about her deep interest in Continental Hall. The magazine contains the official announcement of every cash contribution and every pledge to the Continental Hall fund.

The chapters of small membership throughout the country looked to the big New York chapter to take the lead in money contributions to the Continental Hall fund. The opponents to Mrs. McLean, after looking over the files of the magazine find that in the fourteen years since the New York city chapter was organized it has given the Continental Hall fund just \$20.00. At the congress of 1899 \$100 was given in memory of a deceased member, and in 1904 another \$100 was contributed toward the Continental Hall fund. These contributions were from the chapter itself. Individual members have added to this amount \$230, making the total contribution up to date according to the official record, \$430 from the New York city chapter and its members in fourteen years.

This is part of the campaign that is being done to knock out Mrs. McLean. Those who have dug out these facts from the official magazine state also that the New York city chapter has an income of about \$2,000 annually. It has a membership of between 400 and 500, an initiation fee said to be \$10 and annual dues of \$5 from each member according to report.

Those who don't want Mrs. McLean at the head of the organization believe that she has done very little toward boosting the fund for Continental Hall in view of the large membership and the annual income. They have also pointed out that Mrs. McLean during the congress of 1899 made the following announcement:

"I desire to present personally \$50 as a memorial to Mrs. John Richey of Maryland."

It was stated by Daughters who seek the defeat of Mrs. McLean that this amount has not been paid. They also state that there is no record in the official magazine, to which Mrs. McLean referred her opponents, that she has contributed any money to the building expense.

It is explained by Mrs. McLean's friends that when the building is completed and ready to receive her gift she will then redeem her pledge by adding a carved coat of arms to the decorative features of the hall.
